[] Comment. The amounts of meat and lard [] are for the supply of troops, presumably for elements of the Fourth Gds Mecz Army. General Pichkov (fnu) is Chief of Rear Services of this army. [] The amounts of meat and lard [] are sent to the Soviet trade section in the area of Eberswalde. This trade section is similar to an American PX. No comment can be made on the volume of deliveries, as other figures for comparison are not available. However, it is noteworthy that, in spite of the shortage of food in East Germany, Soviet requirements for October were largely fulfilled
